MANTADIX® 100 mg capsule	Unauthorised (Exempt Medicinal Product)	M0108	12-2026

16 June 2026

Dear Veterinarian,

We wish to advise you that the batches of products detailed in the above table are being recalled with immediate effect.

The recall is going to **veterinarian level,** and the action has been agreed with the Health Products Regulatory Authority (HPRA).

The reason for the recall is that Amantadine products are for human use and are prohibited as a veterinary treatment, in accordance with Regulation (EU) 2022/1255.

Please perform the following actions:

1. Check your current inventory to establish if you have any units of above batches and immediately quarantine any units of these batches that you have in your possession. Physically segregate quarantined stock in a secure area away from saleable stock and label it appropriately as recalled stock.
2. If you have supplied units of these batches to any other Veterinary Practice, forward those customers a copy of this recall letter and the attachments, requesting that they quarantine and return any unsold quantities to you.
3. Complete the attached Product Return Form (Attachment 1) indicating the number of units quarantined at your facility and return the form to Duggan Veterinary Supplies Limited within 24 hours of receipt of this letter. Credit will be issued for stock received back within 14 days. Duggan Veterinary Supplies Limited will arrange the uplift of quarantined stock once the completed form is received.
4. Complete the attached Product Return Instruction Form (Attachment 2) and include with the quarantined stock.

DUGGAN VETERINARY SUPPLIES LTD
Ireland Unit 9, Thurles Retail Park, Thurles, Co. Tipperary, Ireland, E41 E7K7
