1. NAME OF THE VETERINARY MEDICINAL PRODUCT

Solvent for cell associated poultry vaccines for suspension for injection

2. QUALITATIVE AND QUANTITATIVE COMPOSITION

Active substance:
Not applicable.

Excipients:

Qualitative composition of excipients and other constituents
Sucrose
Casein hydrolysate
Dipotassium phosphate
Potassium dihydrogen phosphate
Phenol red 1% solution
Sodium hydroxide or hydrochloric acid (for pH adjustment)
Water for injections

Solvent: red-orange limpid solution.

3. CLINICAL INFORMATION

3.1 Target species

Chickens.

3.2 Indications for use for each target species

In chickens:
For the suspension preparation of Boehringer Ingelheim frozen vaccines against Marek's disease.

3.3 Contraindications

Do not use alone.

3.4 Special warnings

None.

3.5 Special precautions for use

Special precautions for safe use in the target species:

Read special precautions for use of Boehringer Ingelheim frozen vaccines against Marek's disease.

Special precautions to be taken by the person administering the veterinary medicinal product to animals:

In case of accidental self-injection, seek medical advice immediately and show the package leaflet or the label to the physician.

Special precautions for the protection of the environment:

Not applicable.

3.6 Adverse events

None.

3.7 Use during pregnancy, lactation or lay

Read corresponding information of Boehringer Ingelheim frozen vaccines against Marek's disease.

3.8 Interaction with other medicinal products and other forms of interaction

None known.

3.9 Administration routes and dosage

Refer to posology and method of administration of Boehringer Ingelheim frozen vaccines against Marek's disease.

3.10 Symptoms of overdose (and where applicable, emergency procedures and antidotes)

None.

3.11 Special restrictions for use and special conditions for use, including restrictions on the use of antimicrobial and antiparasitic veterinary medicinal products in order to limit the risk of development of resistance

Not applicable.

3.12 Withdrawal periods

Zero days.

4. IMMUNOLOGICAL INFORMATION

Not applicable.

4.1 ATCvet code: QV07AB

5. PHARMACEUTICAL PARTICULARS

5.1 Major incompatibilities

Do not mix with any other veterinary medicinal product except Boehringer Ingelheim frozen vaccines against Marek's disease.

5.2 Shelf life

Shelf life of the veterinary medicinal product as packaged for sale: 3 years.
Once broached, use immediately.

5.3 Special precautions for storage

Store below 30°C. Do not freeze. Protect from light.

5.4 Nature and composition of immediate packaging

- 200 ml polyethylene-PVC bag.
- 400 ml polyethylene-PVC bag.
- 800 ml polyethylene-PVC bag.
- 1 000 ml polyethylene-PVC bag.
- 1 200 ml polyethylene-PVC bag.
- 1 600 ml polyethylene-PVC bag.
- 1 800 ml polyethylene-PVC bag.
- 2 400 ml polyethylene-PVC bag.

Not all pack sizes may be marketed.
