

In case of direct skin contact with LEDAGA in individuals other than the patients, wash abundantly with water and contact your doctor.

The transparent sealable plastic bag supplied with LEDAGA to prevent secondary exposure and contaminations is child resistant.

Do not throw away any medicinal product or nitrile gloves used for application and ask your pharmacist.

Apply LEDAGA immediately or within 30 min after taking it out of the refrigerator.

Unzip the transparent sealable plastic bag, take LEDAGA out of the carton and open the tube.

Apply a thin layer to completely dry skin.

Caregivers must wear nitrile gloves before applying a thin layer to completely dry skin.

Allow the gel to dry (5-10 min).

After application, wash hands with soap and water.

With clean hands, close the tube, return it to the carton and then into the transparent sealable plastic bag, and zip it closed.

Return the transparent sealable plastic bag to the refrigerator.
