

**Erelzi**<sup>®</sup>  
etanercept

## **Patient Card**

**S A N D O Z**

**ROWEX**<sup>®</sup>

This Patient Card contains important safety information that you need to be aware of before you are given Erelzi and during treatment with Erelzi. Please ask your doctor if you do not understand this information.

- Show this card to any doctor involved in treating you.
- See also Erelzi package leaflet for more information.

## Infections

Erelzi may increase the risk of getting infections, which could be serious.

- You should not be treated with Erelzi if you have an infection. If you are not sure, ask your doctor.
- If you develop symptoms suggestive of infection, such as fever, persistent cough, weight loss or listlessness, seek medical attention immediately.
- You should be evaluated for tuberculosis (TB). Ask your doctor to record the dates and results of your last screening for TB below:

Test: \_\_\_\_\_

Date: \_\_\_\_\_

Results: \_\_\_\_\_

Test: \_\_\_\_\_

Date: \_\_\_\_\_

Results: \_\_\_\_\_

- Please ask your doctor to list your other medications that may increase your risk of infection.
