Treatment centre name:.....

Treatment centre phone number:.....

Date of preparation: 06/2016 CCF no 18595

Rowex Ltd., Bantry, Co Cork.

Medicinal product subject to medical prescription.

Patient Alert Card

Voriconazole Rowex
voriconazole

Please carry this card with you at all times.

Please ensure you **undergo all follow-up** visits for skin evaluations arranged by your doctor.

Please have a list of all your other medicines and medical conditions available at each visit to a health care professional.

You should avoid exposure to sunlight during voriconazole treatment. It is important to cover sun exposed areas of skin and use sunscreen with high sun protection factor (SPF), as an increased sensitivity of skin to the sun's UV rays can occur. There is a small chance that skin cancer could develop over time. You should contact your doctor immediately if you experience sunburn or severe skin reaction following exposure to light or sun e.g., severe skin rash or blisters.

This card contains **important safety information** you need to be aware of before you are given voriconazole, and during treatment with voriconazole. If you do not understand this information, please ask your doctor to explain it to you. Show this card to any doctor or healthcare professional involved in your care. See the voriconazole package leaflet for more information.
